

National Marfan Foundation

Serving the Needs of People with the Marfan Syndrome and Related Connective Tissue Disorders

August 18, 2006

To Whom It May Concern:

The National Marfan Foundation was very pleased with the children's programs at our National Conference (at the Lowes Hotel in Philadelphia, July 7-9, 2006) provided by Suzette Trimmer, director of "Your Other Hands", and her very capable staff.

We hired "Your Other Hands" to plan and implement programs for two groups: one for 20 children ages 0-5, and one for 59 children ages 6-12. They met this challenge with great success. Suzette was thorough in her communications with us prior to the conference, and in her logistical plans for on site. They provided all plans, registration (with safeguards), games, activities, crafts, supplies, creative goody bags, and more! The children were happy, and wanted to come back every day. The parents were happy that their kids were happy.

It was reassuring to know that we could count on Suzette and her staff to take responsibility for this very important conference component. We would use her again.

Sincerely,

A handwritten signature in black ink that reads "Kathy Jeffers".
